MADE IN USA

THE DESIGN CASE

THE FLOOR BECOMES THE FEATURE

SolidCor 218 turns the ground plane into a design statement. A continuous, hand-poured stone-look surface — no grout lines, no seams, no repeats — with real depth, movement and light held in the resin.

Where standard flake flooring reads as utility, SolidCor 218 reads as intention: a refined, designed finish specified for spaces where the floor is meant to be noticed.

SEAMLESS

No grout. No seams. No repeats — one uninterrupted surface.

GLIDEBUILD™ TECHNOLOGY

Self-levels to a flawless, mirror-flat plane as it's poured.

STATEMENT FINISH

High-gloss, stone-deep character with genuine visual impact.

BEYOND ORDINARY FLOORING

A SURFACE WORTH SPECIFYING

SolidCor 218 takes decorative flake flooring to a whole new level — a seamless, stone-deep surface with a refinement that ordinary flake systems simply can't reach.

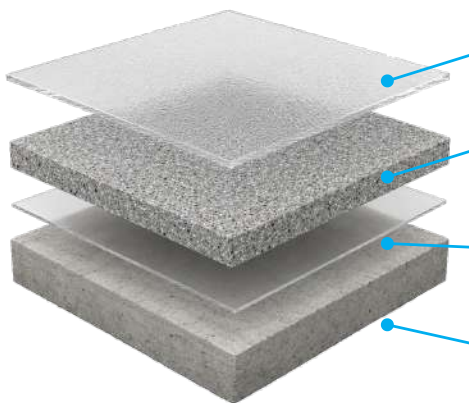

GlideBuild™ Technology self-levels the material into a mirror-flat plane, so the eye reads one uninterrupted expanse of color, depth and light — a floor made to be the centerpiece.

THE FIRST THING GUESTS NOTICE — AND THE LAST THING THEY FORGET

THE SYSTEM

ONE SEAMLESS FLOOR

CRYSTALCOAT 325 • OPTIONAL

04 Clear topcoat adding improved chemical resistance and a non-slip finish.

SOLIDCOR 218 TERRAZZO-LOOK BUILDCOAT

03 The decorative body coat — poured seamless with GlideBuild™ Technology.

BONDMAXX 113 OR 127 PRIMER

02 Penetrating primer that locks the system permanently into the slab.

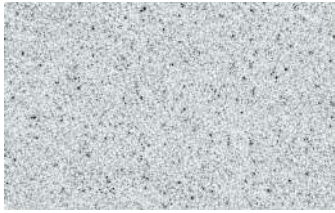

PREPPED CONCRETE

01 Profiled substrate, ready to receive the system.
